Dear Mr. Bernhard:

Thank you for giving the Green Party of Ontario an opportunity to speak about the importance of public broadcasting.

The Green Party of Ontario fully supports public service broadcasters TVO and TFO. Publicly-funded Canadian broadcasters play a critical role in delivering important information and quality content to the people of Ontario, whether it be educational programs for children or political commentary.

The best way for public broadcasting to thrive is to ensure continuous promotion and stable funding. We commit to ongoing support for both broadcasters.

Public broadcasters enrich our lives, and we appreciate the valuable role they play in shaping our local communities and culture.

Sincerely,
Samantha Bird
Director of Operations
Green Party of Ontario
